*Clean Clothes  
for a Green World*

ZÖP is a new concept in liquid laundry detergent. It was developed for green dry cleaners as an eco friendly detergent. Now it is being offered to the public through dry cleaning stores. How it works is simple: Customers can purchase ZÖP at your plants or drop stores in 50 oz. bottles. When they are ready for more ZÖP, they simply return with the empty bottle to your store for a refill. We will provide your store with Free 'n Clear and ZÖP Original Scent in 5 or 15-Gallon drums with a pour spout for refilling. Additionally, you can sell the 50 oz. bottles over the counter.

Join the growing number of dry cleaners offering ZÖP and growing their profits while being eco friendly and GREEN. Call us today for more information or to get started.
